

IMPLEMENTATION OF THE NORTH AMERICAN INDUSTRIAL CLASSIFICATION SYSTEM (NAICS)

Effective July 1, 2003, the Panel transitioned from the Standard Industrial Classification (SIC) code system to the North American Industrial Classification System (NAICS). Previously, the Panel utilized SIC codes as part of its eligibility/certification process for employers (retraining). CCR Section 4416 defines as eligible for standard retraining, those employers within the manufacturing industrial sectors and ancillary industries that have been deemed to be facing out-of-state competition. The SIC codes identified in the Regulation will be replaced with the new NAICS Sectors, Subsectors and Industry Groups that will be considered eligible for standard retraining by definition. While this change is being accomplished via the regulatory process, companies assigned by the Employment Development Department a NAICS Code within the following Subsectors, Industry Groups and/or Industries are deemed to meet out-of-state competition:

Sector 31-33 Manufacturing	
Subsector	Products
311	Food products
